MD. Azizul Hakim Ayon

Software Developer | React · Laravel · PHP · MySQL · Flutter

Savar, Dhaka, Bangladesh | +880 1997418910 | azizulhakimayonsheikh@gmail.com

Portfolio: azhayon.github.io/azhayon-portfolio | GitHub: github.com/Azhayon | LinkedIn: linkedin.com/in/azhayon

PROFESSIONAL SUMMARY

Software developer and recent BSc Computer Science and Engineering graduate from Daffodil International University. I build full-stack web applications with React, Laravel, PHP and MySQL, and cross-platform mobile apps with Flutter and Dart. My portfolio includes an e-commerce platform with an admin panel, a Clean Architecture Flutter app with Firebase integration, and a team-built PHP/MySQL web platform. I also contributed to machine learning research on smoking cessation, now under review at a Scopus-indexed journal. I am learning React and Node.js in more depth and am looking for a junior software developer role in Bangladesh or remote, where I can learn from a team and ship real products.

TECHNICAL SKILLS

Programming Languages: JavaScript, PHP, Dart, Python, SQL, HTML5, CSS3

Front-End: React, Redux, HTML5, CSS3, JavaScript (ES6+), responsive design

Back-End: Laravel 11, PHP, REST APIs, authentication and role-based access; Node.js (learning)

Mobile Development: Flutter, Dart, flutter_bloc, Clean Architecture, Firebase

Databases: MySQL

Machine Learning: Python, Random Forest, XGBoost, LightGBM, SVM, ensemble methods, genetic-algorithm feature selection, SHAP

Tools and Practices: Git, GitHub, XAMPP, phpMyAdmin, version control, teamwork in agile-style student projects

PROJECTS

Anju Online Shop – Full-Stack E-Commerce Web Application React · Redux · Laravel 11 · MySQL

Built for a family-run clothing business

- Designed and developed a complete online store with user authentication, product management (CRUD), shopping cart, checkout, and user profile pages.
- Managed cart and application state with Redux; connected the React front end to a Laravel 11 back end and a MySQL database.
- Created an admin panel so the shop owner can manage the store without technical help.
- Source code is kept in a private repository; available to show on request.

Expense Tracker – Flutter Mobile Application Flutter · Dart · flutter_bloc · Firebase

github.com/Azhayon/expense_tracker

- Developed a cross-platform expense tracking app following Clean Architecture, with separate presentation, domain and data layers.
- Implemented state management with flutter_bloc and integrated local storage and Firebase (authentication and cloud sync) using AI-assisted development.
- Added spending charts and summaries so users can see where their money goes.

PC Fusion – Ultimate PC Builder (Team of 4) HTML · CSS · JavaScript · PHP · MySQL

github.com/Azhayon/pc-fusion-project | CSE416 Web Engineering Lab, DIU, Dec 2025

- Worked in a four-person team on a web platform that helps beginners choose compatible PC parts for purpose (gaming, video editing, office, streaming) and budget.
- Features: build simulator with total price, estimated power use and compatibility check; pre-built suggestions; community build sharing; cart and order confirmation.
- Account system with client-side (JavaScript) and server-side (PHP) validation, backed by a MySQL database.

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE) 2022 – 2026
Daffodil International University (DIU), Dhaka, Bangladesh | CGPA: 3.26 / 4.00

Higher Secondary Certificate (HSC), Science 2021
Dhamrai Hardinge College | GPA: 4.00 / 5.00

Secondary School Certificate (SSC), Science 2019
Doshaid A.K. School and College | GPA: 4.11 / 5.00

RESEARCH

Analyzing Psychological Barriers to Smoking Cessation Using Machine Learning Under review
Co-author | Bulletin of Electrical Engineering and Informatics (BEEI), Scopus-indexed

- Trained and compared ten classifiers (including Random Forest, XGBoost, LightGBM, SVM and a stacking ensemble) on survey data about psychological barriers to quitting smoking.
- Applied genetic-algorithm feature selection and SHAP analysis to identify and explain the most influential factors; ran multi-seed stability checks on the selected features.
- Dataset published on Mendeley Data (doi: 10.17632/3yvjgckxmm.1). Presented the final defense in July 2026.

CERTIFICATIONS AND TRAINING

- Certificate of Appreciation – Unlock the Algorithm Programming Contest, Spring 2024, Daffodil International University
- Certificate of Participation – Workshop "Prepare for Your First Big Corporate Job", HRDI, Daffodil International University, 4 March 2023
- Complete Web Development Course (Udemy, instructor: Hitesh) – in progress

LANGUAGES

Bengali: Native
English: Listening C1, Reading C1, Writing B2, Speaking B2 (CEFR, self-assessed)
