MD. Azizul Hakim Ayon

Software Developer | React · Laravel · PHP · MySQL · Flutter

Savar, Dhaka, Bangladesh | +880 1997418910 | azizulhakimayonsheikh@gmail.com

Portfolio: azhayon.github.io/azhayon-portfolio | GitHub: github.com/Azhayon | LinkedIn: linkedin.com/in/azhayon

PROFESSIONAL SUMMARY

Software developer and recent BSc CSE graduate who builds full-stack web applications with React, Laravel, PHP, and MySQL, and cross-platform mobile apps with Flutter. Built an e-commerce platform with an admin panel, a Clean Architecture Flutter app, and a team-based PHP/MySQL web platform. Co-author of a machine learning paper under review at a Scopus-indexed journal. Seeking a junior software developer role in Bangladesh or remotely.

TECHNICAL SKILLS

Languages: JavaScript, PHP, Dart, Python, SQL, HTML5, CSS3
Web Development: React, Redux, Laravel, REST APIs
Mobile: Flutter, Dart, flutter_bloc, Firebase
Databases: MySQL
Tools: Git, GitHub, XAMPP

PROJECTS

Anju Online Shop – Full-Stack E-Commerce Web App React · Redux · Laravel 11 · MySQL

- Built a complete online store for a family clothing business: user authentication, product management (CRUD), shopping cart, checkout and user profiles.
- Managed cart state with Redux and connected the React front end to a Laravel 11 back end and MySQL database.
- Created an admin panel so the shop owner can manage the store without touching code.

Expense Tracker – Flutter Mobile App Flutter · Dart · flutter_bloc · Firebase
github.com/Azhayon/expense_tracker

- Developed a cross-platform expense tracking app using Clean Architecture, separating UI, domain and data layers for easier testing and maintenance.
- Implemented state management with flutter_bloc and integrated local storage and Firebase (authentication and cloud sync) using AI-assisted development.

PC Fusion – Ultimate PC Builder (Team of 4)HTML · CSS · JavaScript · PHP · MySQL
github.com/Azhayon/pc-fusion-project | CSE416 Web Engineering Lab, DIU, Dec 2025

- Collaborated on a web platform that helps beginners build a custom PC: purpose-based pre-builds, a build simulator with total price, power estimate and compatibility check, community build sharing and cart.
- Account system with client-side and server-side validation using PHP and MySQL.

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE)2022 – 2026
Daffodil International University (DIU), Dhaka, Bangladesh | CGPA: 3.26 / 4.00

Higher Secondary Certificate (HSC), Science2022
Dhamrai Hardinge College | GPA: 4.00 / 5.00

Secondary School Certificate (SSC), Science2019
Doshaid A.K. School and College | GPA: 4.11 / 5.00

RESEARCH

Co-author, "Analyzing Psychological Barriers to Smoking Cessation Using Machine Learning" – under review at Bulletin of Electrical Engineering and Informatics (Scopus-indexed). Compared ten classifiers with genetic-algorithm feature selection and SHAP interpretability.

CERTIFICATIONS AND TRAINING

- Certificate of Appreciation – Unlock the Algorithm Programming Contest, Spring 2024, Daffodil International University
- Certificate of Participation – Workshop "Prepare for Your First Big Corporate Job", HRDI, Daffodil International University, 4 March 2023
- Complete Web Development Course (Udemy, instructor: Hitesh) – in progress
